

NOTICE

Dear Parents/Guardians,

- British Council's connecting classrooms and "I love My Mother Earth Foundation" has invited our school to participate in an exciting activity under the "Great Banyan Project", A MOVEMENT OF ENVIRONMENT AWARENESS and sustainable action. This year we can make our school a part of one of the biggest paper recycling Project and contribute towards saving the environment and helping a huge number of less privileged children with notebooks made from recycled papers. Children should contribute paper waste which will consist of full sheets of circulars, discarded note books, old books, newspapers and magazines. The project encourages sustainable action while contributing towards a noble cause and the efforts of the schools will be recognized through prizes in different categories.

We look forward to your whole hearted participation in this exciting social action project. Each eco-champ student will receive a merit card.

Please follow the given days to bring old news papers/magazines etc.
