Our Chairman

Mr. Shailesh Khaitan

A courageous visionary, a meticulous planner, a decisive executor and an inspired achiever, the chairman Mr. Shailesh Khaitan is a dynamic personality who has made success his way of life.

Indus Valley World School is fortunate to have Mr. Shailesh Khaitan as its care-giver. He juggles a whole plethora of activities with marvellous elan. He heads the Khaitan Chemicals And Fertilizers Group as Chairman and Managing Director and acts as one of the prime driving forces in "SAMAGAM" Delhi, a society engaged in promotion and presentation of Indian heritage and cultural values.

He is also the chairman of B.D. Memorial Institute, one of the leading Schools of Kolkata educating more than 7000 students.

Our Vision and Mission

Indus Valley World School nurtures the dream of setting up an institution of academic excellence. The founders envisage a quality school system which would strike a perfect balance between Indian culture and tradition and the best western ideals. It would provide technology aided learning to impart the best values on the sound foundations of humanitarianism and integrity.

The institution's mission is to provide a caring learning environment where professionals would deal with the learners with exemplary warmth and concern. The mission is also to encourage the learners to develop their individualities and to ensure all round development of the children with the teachers teaming up with the parents. Children are encouraged and guided to 'Dream Big and Think Big'.

A Dreamland for the tiny tots

Every classroom for the pre primary kids is equipped with a theme decor oriented towards a wide range of learning activities. 3D effects with hi-tech lightening and sound is provided to give the play school kids a complete audiovisual experience. To make learning a pleasurable activity themes like wildlife, nature, fairytales, nursery rhymes, good habits and values have specially been designed for them in their classrooms and corridors

A fully covered play area with more than 40 activities is a source of abundant joy to the children.

Training for Leadership

At IVWS participation in co-curricular and sporting activities is given equal importance along with academic performance. Training in communicative skills like debate, elocution, extempore, dramatics etc is encouraged to facilitate the use of English in daily life. Disciplines like music (vocal and instrumental), dance, painting, karate, yoga, Chess, etc., form an integral part of the curriculum.

Mini Auditorium.

The school provides a gamut of indoor games like table-tennis, billiards, pool games, carom and chess. Other than these, outdoor games like basketball, football and cricket under proper guidance act as a stimulant to the children.

In addition to physical development and exploration of interests, students learn the thrills of challenge and competition, the importance of listening and concentration, the spirit of teamwork and sense of accomplishment through regular inter house competitions.

Educational tours, trips and excursions are also regular features. These plethora of activities coupled with community service programmes, lead to holistic development of a child's personality.

The dates for the form will be notified on the school's website and also on the notice board of the school. Interested parents are requested to check.

The dates for the admission test will be notified on the School notice board, as well as on the website. Candidates are requested to appear for the admission test along with a copy of the admit slip (attached with the form).

The names of short listed candidates will be communicated to the parent / guardian and displayed on the notice board as well.

The short listed candidates and their parents / guardians are required to attend an interaction with the Principal along with the following documents:

1. Filled up form
2. Attested photocopies of the Birth Certificate (2 copies)
3. Original Birth Certificate
4. Report Card of the previous class (in case of candidates seeking admission to Grade II or above)

The selected candidates will have to submit the Admission Form along with the fees at the school office on the scheduled dates.

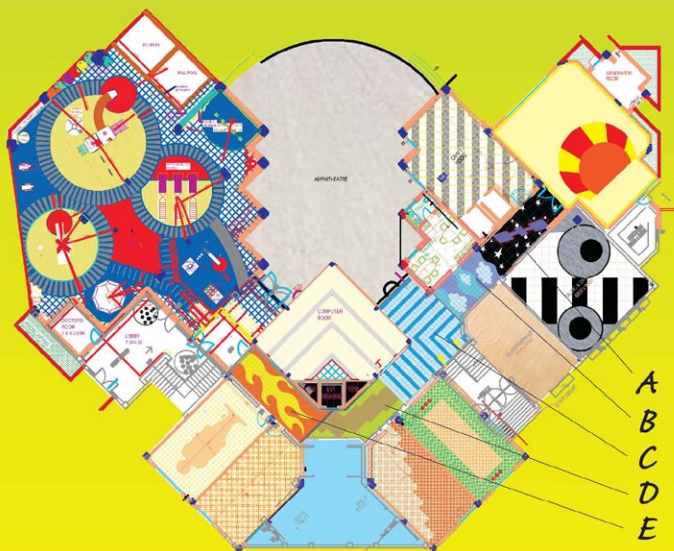

Withdrawals

A prior notice is a must in case of withdrawal of a student from the school. A pupil failing in the same class, two years in succession is automatically considered withdrawn and the name is struck off the rolls. Immediate notification is required for a failed pupil who desires to continue studying in the same class. A student absent from school, without prior notice for a considerable length of time may not be retained in school. Irregular attendance, behavioural problems or any kind of ill influence attempted to be created might lead to removal of a student from the school.

Ground Plan

School is regarded as the 'Knowledge House' and precisely so for the young kids where they respond to elementary shapes clubbed with vibrant colors.

Our concept for the school interiors emerges from the five basic elements of the Panchamahabhutas -

A - Akash (Space)

B - Vayu (Air)

C - Jal (Water)

D - Prithvi (Earth)

E - Agni (Fire)

and further we have incorporated educational elements in different rooms.

Universally, the five elements are mixed in an infinite variety of relative proportions such that each element is distinctly unique. Although each element has a range of attributes, they maintain their presence felt at all times. Constantly changing and interacting with each other, they create a situation of dynamic flux that keeps the world going.

These elements reflect in every aspect of our life and the same are depicted through pictorial representation on the school floors. The lobby area is exclusively demarcated into five distinct zones, each zone representing these five elements. The distinct character of every element would catch attention of the child entering the school on a daily basis and the deep rooted philosophy behind these five elements would be subtly absorbed by the youngsters. This specialized themed flooring would stimulate the child's intrinsic brain and help develop a learning curve towards nature in general.

Transforming a school building into a vibrant jungle experience

While designing the facade, an effort is made to create an atmosphere that inspires and stimulates the kids mentally. The theme should be interesting to the child, and should reinforce both rational thinking, and creativity. One way to achieve this goal is with a fun science based theme, which will present a topic in the natural world in an exciting manner, complete with Hi-tech lighting and sound effects...

School Facade - a never ending novelty
